MAXIMIZE YOUR BENEFITS

ALWAYS CONSIDER YOUR IN-NETWORK OPTIONS FIRST

You will typically pay less for covered services when providers are in-network with your medical plan. In-network providers agree to discounted fees. You are responsible only for any copay or deductible that is included in your plan design.

The amount you are required to pay out-of-pocket for out-of-network services may be significant.

TO LOCATE PARTICIPATING IN-NETWORK PROVIDERS:

- **Aetna Participants:** Visit www.aetna.com and select “Find a Doctor.”
- **AmeriHealth Administrators Participants:** Visit www.myahabenefits.com, select “Members” and then “Find a Doctor.”

MAKE SURE YOU ARE USING IN-NETWORK LABS

- **Aetna Participants** may use either **Quest Diagnostics** or **LabCorp** for lab work.
- **AmeriHealth Administrators Participants** must be sure that their providers send all blood work to a **LabCorp** location or other free standing lab. **Quest Diagnostics is not participating in the AmeriHealth Administrators network.**

IN-PATIENT OR OBSERVATION:

The difference between *inpatient* and *observation* status is important because benefits and provider payments are based on the status. Patients admitted under observation status are considered outpatients, even though they may stay in the hospital and receive treatment in a hospital bed.

Hospital admission status may affect coverage for services such as skilled nursing. Some health plans, including Medicare, require a three-day hospital inpatient stay minimum before covering the cost of rehabilitative care in a skilled nursing care center. However, observation stays regardless of length, do not count towards the requirement.

A new law requires hospitals to give Medicare patients notice of an observation status within 36 hours. This status determines how the hospital bills your health plan. Even if you are NOT under Medicare, when you or your family member arrives at the hospital, you can ask questions like:

- Is the patient’s status *inpatient* or *observation*?
- How long will the hospital stay be?
- Will there be a need for specialized skilled or rehab care after discharged?

Asking these questions throughout the hospital stay is important because hospitals can change the status from one day to the next. You can ask to have the status changed, but it is important to do so while still in the hospital. If necessary, you can request the hospital’s patient advocate for assistance.

SAVE TIME AND MONEY!

Avoid long waits at the Emergency Room and reduce your out-of-pocket costs by utilizing Telemedicine and Urgent Care Centers for ailments that are not life-threatening. Both of these options provide fast, effective care—when you need care fast.

KNOW WHERE TO GET CARE

Visits to the ER can be very costly, so before you go to the ER, consider whether your condition is truly an emergency or if you can receive care from Telemedicine or at an Urgent Care Center instead.

LEGAL NOTICES

Availability of Summary Health Information

As an employee, the health benefits available to you represent a significant component of your compensation package. They also provide important protection for you and your family in the case of illness or injury.

The Fund offers a series of health coverage options. You should receive a Summary of Benefits and Coverage (SBC) during Open Enrollment. These documents summarize important information about all health coverage options in a standard format. Please contact Human Resources if you have any questions or did not receive your SBC.

Patient Protection and Affordable Care Act

Please note: the Fund medical plans are considered compliant with the Patient Protection and Affordable Care Act. There are no annual limits, dependent children can be covered to age 26 and preventive care is covered at 100% with no member cost-sharing and the pre-existing exclusion limitations have been removed.

As new Health Care Reform requirements become effective, the Fund plans will be modified. We are fully committed to complying with all regulations and intend to notify you as soon as possible of any change(s).

Newborns' and Mothers' Health Protection Act

Group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

Women's Health and Cancer Rights Act

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Women's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomy-related benefits, coverage will be provided in a manner determined in consultation with the attending physician and the patient, for:

- all stages of reconstruction of the breast on which the mastectomy was performed;
- surgery and reconstruction of the other breast to produce a symmetrical appearance; prostheses; and
- treatment of physical complications of the mastectomy, including lymphedema.

These benefits will be provided subject to the same deductibles and coinsurance applicable to other benefits. If you have any questions, please speak with Human Resources.

Premium Assistance Under Medicaid and the Children's Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you're eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial 1-877-KIDS NOW or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren't already enrolled. This is called a "special enrollment" opportunity, and you must request coverage within 60 days of being determined eligible for premium assistance. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call 1-866-444-EBSA (3272).

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of July 31, 2022. Contact your State for more information on eligibility –
